Databases	SQL, Firebase
Frameworks	React.js, Next.js, Bootstrap, Tailwind, Node.js
	Socket.IO, WebRTC, Dialogflow, (API Integration)

Work Experience

Frontend Web Developer Intern   02/2024 – 04/2024
Raise Digital
Tasks/Projects
Resolved conflicts between different elements of the application's front end architecture.
Collaborated with back-end developers and designers to create seamless website experiences.

PROJECTS

My Portfolio   (Next.js, Tailwind, ResendAPI, Framer motion, Cloudinary)   Demo Link   *Github*

- A personal portfolio website displaying my education, experience, projects with live demos, and technical skills.

- It includes a contact form integrated with the **Resend API** and is fully deployed on Vercel for a responsive and modern user experience.

Colloquy – A Video/Voice Calling Website

(React.js, Node.js, Express.js, Socket.IO, WebRTC, SCSS)   Demo Link   *Github*

- Developed a video calling platform using **React.js and Socket.io** with unique, session-based usernames, call popups, and registration-free access. Hosted on GitHub and deployed on Render.com.

Edulift – A smart Education platform for underprivileged students
(Next.js, Nodejs, Express,js, API's, Tailwind, Firebase)   Demo Link   *Github*

- Developed key frontend components using Next.js. as Team Leader , coordinating development and collaboration across the team.

- Integrated Razorpay for seamless donation processing and Google Books API for educational resource recommendations.

Citizen Link   (HTM, CSS, Bootstrap, Javascript)   Demo Link   *Github*

- The platform is designed to enhance citizen engagement by providing convenient access to a wide range of city services, local news, community events, issue reporting and tracking, emergency alerts, and an interactive map.

- Worked upon complete frontend with my Hackathon team, assigned them work and led my team into the finals.
